

CHM 122 : General Chemistry II

This course is designed to prepare students for more advanced courses in chemistry and science. This course is a continuation of the study of the basic principles of chemistry. Topics include: intermolecular forces, solutions, kinetics, equilibria, acids and bases, thermodynamics, electrochemistry, nuclear chemistry, and organic chemistry. The laboratory will reinforce the lecture topics and emphasize safety and technique. This course is a second semester course of a two semester sequence.

Credits 4

Lecture Hours 3

Lab Hours 1

Prerequisite Courses

CHM 120
