

# PSY 200 : Abnormal Psychology

*Spring, Summer*

This course examines behaviors currently described as psychological disorders, as well as theoretical, clinical, and experimental perspectives of the study, diagnosis, and treatment of psychopathology. Emphasis is placed on terminology, classification, etiology, assessment, and treatment of the major disorders. Upon completion, students should be able to distinguish between normal and abnormal behavior patterns, as well as demonstrate knowledge of etiology, symptoms, and therapeutic techniques. Students explore current research through reading original empirical research.

**Credits** 3
