

CRJ 135 : Introduction to Cybercrime

Spring

The focus of this course is to introduce students to cyber and digital crime through the examination and description of various types of crimes committed using computer technology, theories addressing hackers and other types of digital criminals, an overview of the legal strategies and tactics targeting this type of crime, and investigation and research into digital crime, digital terrorism, and information warfare. Additionally, upon successful completion of this course, students will be better prepared for further study of growing problems in crime, terrorism and information warfare being committed using computer technology.
