

# Student Email Accounts

Pennsylvania Highlands provides its students with a College email account which enables them to communicate with instructors and to stay current on periodic important announcements. The College requires all students to use this email account. Most contact with current students from the College is only conducted using official College email accounts. Technical issues regarding the use of College email should be reported to the Information Technology Help Desk at 814-262-6470 or via email to [helpdesk@pennhighlands.edu](mailto:helpdesk@pennhighlands.edu).
