

CIT 233 : Windows Enterprise Services

Spring

This course will provide the student with the knowledge needed to deploy and configure an organization's application infrastructures with Microsoft Windows Server 2012. Students will learn to deploy services such as Certificate Services, IIS, Remote Services, Sharepoint, SANs, and how to set up a network environment. Upon completion of the course, the student will be well on the way to passing the Microsoft 70-412 Configuring Advanced Windows Server 2012 Services Certification exam.
