

CIT 290 : Information Technology Internship

The internship is a credit-worthy work opportunity for students to gain experience in their major areas of study by strengthening and expanding their classroom knowledge through practical application. You must earn a total of 3 internship credits. To earn one credit, an intern must satisfactorily complete a minimum of 45 hours on the job; therefore, the intern must complete a total of 135 hours.

Credits 3

Internship Hours 135

Prerequisites

Students may intern after earning at least two-thirds of their program credits and a 2.0 grade point average. All students must apply to intern during the semester prior to the semester in which they plan to earn the internship credits.
