

# Medical Assisting Technology

## Degree Type

Associate of Applied Science

## Program Description

The Associate of Applied Science Degree in Medical Assisting Technology is a comprehensive approach to preparing students to work in the complex environment of physician offices, hospital business services, and other health care related facilities. Graduates of the program have the necessary skills for managing a medical office and the clinical skills for patient care. The program covers administrative skills, both ICD and CPT coding, medical billing, insurance coding procedures, and provider regulatory issues. Clinical skills include everything within the role of a medical assistant from patient history, vital signs and documentation to diagnostic testing, phlebotomy, and patient education. Included are basic human anatomy and physiology, disease, and pharmacology concepts. There is a planned practicum that prepares the student for transition to the professional field. Managed care and ethico-legal aspects of health care are integrated throughout the program along with microcomputer applications. Students that satisfactorily complete the program are eligible to apply for and take the National Center for Competency Testing (NCCT) National Certified Medical Assistant (NCMA) exam.

Students will be required to purchase and wear the school uniform to all clinical labs and off-campus learning experiences.

This program requires the student to submit an approved Child Abuse History Clearance (Act 151), Pennsylvania State Police Criminal Background Check (Act 34), and Federal Criminal History Record Information (ACT 114) prior to the start of a course that contains a lab or service-learning requirements. The clearances must be valid through the end of the semester in which the student is enrolled in the program.
